

“Suggestions to Prepare for a Special Service”

The following “list of suggestions” was developed as a result of our praying that God would make each and every time of ministry a time when He was able to do what ever He desired in the service and in the lives of the people present. After all, if God is not present, there is no use in being there.

Please pray and ask God to show you what how you can lead your people in this time of preparation for a special move of God’s presence. We believe that God has something special available for us if we but prepare our hearts and come expecting. (II Chr 7:14)

First and Most Important:

Encourage the church to join us in prayer for this time of ministry. This may be done with prayer during normal services or calling for special times of prayer, either at the church or at homes. If God leads, even a special time of fasting and prayer would be suggested, but only as God leads.

Second:

Challenged each person to bring (10) people to with them that night, especially if they are unsaved or really need a touch from God. Encourage them to pick up the guests and bring them, not just invite them. If the people pray and believe, then faith leads to action. (James 2:17)

Third:

The most important result would be souls saved. So therefore, the people outside the church need to hear about this special service. We suggest that you use as many methods of promotion that you are able, especially those that are free. Even TV and others have free community announcement spots that are available. We are including a news release that you may use, or you may use your own. Contact radio stations (both religious and secular), TV, newspaper and of course put out flyers. We will be happy to provide as many as you need. This promotion should be in place four (4) weeks prior to the scheduled service but no later than three (3) weeks prior.

Finally:

Pray! Seek God! Pray!

We look forward to seeing you in the Presence of the Lord!
